### FOR NON POROUS SURFACES

## NP INKS AND ACCESSORIES

Noris 007 ink is used for printing on non porous surfaces like glossy paper, plastics, and metals. This ink requires a felt pad and a bottom cover for the stamp. The bottom cover helps to keep the stamp pad from drying out too quickly. Using 007 ink takes a little more effort but the results are worth the effort. Available in Black, Red, Blue or White.
